LANGUAGES

- Bulgarian (Native)
- English (Working proficiency)

PROFESSIONAL PROFILE

Motivated future QA specialist with hands-on experience in manual software testing, bug reporting, and mobile app development. Completed real-world QA projects through training, including writing test cases, logging bugs in Jira, and working with user stories. Independently developed and launched a mobile app, gaining strong understanding of product lifecycle and software quality. Currently expanding knowledge in automation with Selenium and Java. Open to entry-level QA roles or internships.

SKILLS

- Manual Testing: Test cases (View link) · Checklists · Bug reporting · Static/dynamic testing · Black-box testing · STLC · SDLC · User story analysis · QA in Agile/Scrum teams · Product backlog understanding · Non-funcional/functional testing · Levels of testing
